

**REMARKS/ARGUMENTS**

The Specification has been amended to include the correct related application information. The preliminary amendment filed with the application contained a typographical error in the continuity data. The current amendment corrects this inadvertent typographical error by replacing the incorrect U.S. Patent Application Serial No. 09/782,682, for the correct U.S. Patent Application Serial No. 09/782,642.

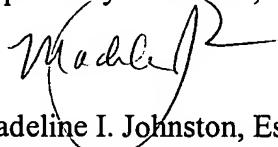

After entry of the amendment, claims 10-17 remain in this application. Claim 10 has been presently amended, and claims 1-9 and 18-23 have been canceled, without prejudice or disclaimer of any previously claimed subject matter.

Support for presently amended claim 10 is found on page 10.

Entry of the amendments and examination of the elected claims is respectfully requested.

The Commissioner is authorized to charge any additional fees or credit any overpayment to Deposit Account No. 11-0980.

Respectfully submitted,

Madeline I. Johnston, Esq.
